

# Mary and Helen

We are Mary and Helen. We are 14 years old and we live in Badajoz.

Helen likes dancing and going out with her family at weekends. She doesn't like studying but she has to do it. She loves speaking because she's very friendly.

Mary likes drawing and singing every day. She's very bad at cooking. She loves art because she's creative.

# We are best friends!

We go classes together  
every week day in the  
morning.

- We love going shopping on Friday evening
- When we have a portuguese exam we like going to the public library for study together.
- Helen goes dancing every Tuesday and every Saturday in the evening. She has Maths's classes on Wednesday afternoon.
- Mary plays the bass and the guitar every day in the afternoon. She has French's classes on Wednesday and Thursday at half past five.

# “I know you did last Friday”

Last Friday we went to the cinema with our friends. After that, we went out for a meal, but all the restaurants were close. When we went to Helen's house, we made something for dinner. Then, we made a party. In the party we ate chocolate and sweets. We saw “The Vampire Diaries” too. After that, we slept and on Saturday morning we went shopping. We enjoy speaking about music and films. We love enjoying together because it's so funny.

# The end!
